

BCEHS Hot Stroke Direct Transport to RIH Algorithm

Stroke Triage Bypass & Transport

FAST Test:
Face = Facial Drooping
Arm = unilateral arm weakness
Speech = speech impairment
Time = time of symptom onset

Bypass Note:
Patient bypass will only be considered for tPA candidates that are within 2 hours and 15 minutes transport time to RIH when closest facility does not have CT scan ability or administer tPA.

Road Conditions:
BC EHS Crews will seek Medical Direction from EPOS if external circumstance will affect transport times
