

Skytrain Response Safety

Rail tracks are safe from electrical shock.

LIM Rail (no charge / safe)

Linear induction motor

A Sky Train Attendant becomes the “Area Coordinator”, ensures **Grounding straps are on AND power to the train is turned off.**

Grounding straps **NEED** to be on
(some stations 1 at each end of the train).

Once safe, Fire Rescue will extricate pt., cars can be rolled by hand or lifted with Auto Ex tools.

Grease / Oil / Grime
