

EPOS Consultation Prioritization Guide

Effective 02 January 2020

HIGH PRIORITY

- Pre-hospital blood product administration
- EFWL decision-making support
- Critically ill / injured (RED) patient transfer planning (including federal resources use)
- FRONTIER trial patient enrolment
- CCP time urgent consultation (out-of-scope medication administration)
- Severe hypothermia / hypothermic cardiac arrest management and transport
- Deteriorating patient support

MEDIUM PRIORITY

- ACP out-of-scope medication administration (e.g. palliative care)
- Termination of resuscitation
- High-risk refusal of transport
- Local hospital bypass decision support
- Competing transfer requests triage support

LOW PRIORITY

- Non-hospital alternative destination decision support
- Goals of treatment conflict resolution
- Mental health patient transfer risk stratification and transfer planning
- Third party physician request
- Non-medical transport request decision support
